

Everyone Benefits With Extreme Absorbency

Patient/Resident

Residents enjoy improved quality of life with NorthShore. No longer isolated in fear of leaks and odors, they can enjoy socializing with other residents or daily activities. Extended wear products allow patients to get a full night's sleep which helps their body rest and recover.

Facility

Facilities worry about their bottom line and NorthShore can help. Facilities can save on labor hours and laundry while reducing the need to purchase additional products like bladder control pads and underpads.

Caregivers/Staff

Caregivers that use NorthShore find they have more time in their day to care for their patients. By performing fewer incontinence changes, staff can spend time on other tasks. Extreme absorbency products keep skin dry even through multiple bladder voids because the quick wicking core locks in moisture away from the skin.

Family

NorthShore can help families manage incontinence at home with quality products that keep loved ones dry. For long term care residents, families can witness improvements in mood and feel confident their loved ones are living with dignity.

NorthShore® Professional

Premium Solutions for Heavy Incontinence

Quality. Confidence. Reliability.

It's Personal

Adam Greenberg started NorthShore Care Supply in 2002 when he saw first-hand his father battling cancer and his grandmother suffering from the side effects of a stroke. At the time, products to adequately manage incontinence while maintaining their privacy and dignity were not available. "It was very difficult to see my family frustrated because they couldn't continue to do the things they loved," says Adam.

He knew he could do better. Since it started, NorthShore has helped millions of people live life worry-free by staying dry. We are now the leader and trusted brand in premium high-absorbency adult diapers, protective underwear, pads, liners and more. Helping our customers, their loved ones and caregivers live life to the fullest is not just our job ... it's personal.

Switch to NorthShore® When All Else Fails!
